

PRESS RELEASE

Westport's Management System Certified to ISO 9001:2008

March 4, 2009

Vital Certification for Westport as Supplier to Truck OEMs

Vancouver, BC -- Westport Innovations Inc. (TSX:WPT / Nasdaq:WPRT), a global leader in alternative fuel, low-emissions transportation technologies, today announced its quality management system (QMS) has been certified as compliant to International Organization of Standardization (ISO) 9001:2008 standards for the design, assembly and commercialization of Westport's liquefied natural gas (LNG) fuel systems.

"As an engine and fuel system supplier to large truck manufacturers, ISO certification of our QMS is central to the development of our customer base," said Michael Gallagher, President and COO of Westport. "This certifies that we have the management systems in place to meet our customers requirements."

Registration by QMI-SAI Global addresses Westport's needs, as a tier 1 automotive supplier, to provide truck original equipment manufacturers (OEMs) with consistent products and support.

ISO 9001:2008 is the international quality certification that defines minimum requirements for a company's quality management system. Westport's QMS comprises the organization's policies, procedures and other internal requirements that aim to ensure that customer requirements are met with consistency, resulting in enhanced customer confidence and satisfaction.

About Westport Innovations Inc.

Westport Innovations Inc. is a leading global supplier of proprietary solutions that allow engines to operate on clean-burning fuels such as compressed natural gas (CNG), liquefied natural gas (LNG), liquefied propane gas (LPG), hydrogen, and biofuels. Cummins Westport Inc., Westport's joint venture with Cummins Inc., manufactures and sells the world's broadest range of low-emissions alternative fuel engines for commercial transportation applications such as trucks and buses. BTIC Westport Inc., Westport's joint venture with Beijing Tianhai Industry Co. Ltd., manufactures and sells LNG fuel tanks for vehicles. Westport's joint venture with OMYL SpA, Juniper Engines Inc., offers light-duty LPG engine solutions for industrial applications such as forklifts. www.westport.com
