

PRESS RELEASE

Westport Appoints Brenda Eprile to Board of Directors

October 25, 2013

VANCOUVER, BC – Westport Innovations Inc. (TSX:WPT / NASDAQ:WPRT), engineering the world's most advanced natural gas engines and systems, today announced that Ms. Brenda Eprile has been appointed to the company's Board of Directors, effective October 24, 2013. The appointment of Ms. Eprile, who was previously a member of Westport's Advisory Board, increases the number of directors from eight to nine.

"Brenda brings extensive financial experience and acumen to the Westport Board," said John Beaulieu, Chairman of Westport. "Her familiarity with Westport as a former Advisory Board member and her deep understanding of public companies are valuable to us as we continue to grow and our business evolves."

Ms. Eprile has been the Managing Director at Sanford Eprile & Company since 2012, a boutique consulting firm serving a wide variety of clients on a range of risk and regulatory issues. From 2000 to 2012, Ms. Eprile was a Senior Partner at PricewaterhouseCoopers and led the Risk Advisory Services practice. Ms. Eprile was a Partner at Deloitte from 1998 to 2000, and created a regulatory advisory practice for the Canadian member firm of Deloitte focusing on public companies and financial services firms. Ms. Eprile had a distinguished career as a securities regulator in Canada from 1985 to 1997, having held the positions of both Executive Director and Chief Accountant at the Ontario Securities Commission. From 1982 to 1985, Ms. Eprile was an audit staff member at Coopers and Lybrand serving a variety of industry sectors including financial services, consumer electronics, and heavy industry. Ms. Eprile is a CPA, CA and has an Honours Bachelor of Music from the University of Toronto, as well as a Master of Business Administration from Schulich School of Business, York University. She is the Chair of the Board of Canada's National Ballet School.

About Westport Fuel Systems

At Westport Fuel Systems, we are driving innovation to power a cleaner tomorrow. We are a leading supplier of advanced fuel delivery components and systems for clean, low-carbon fuels such as natural gas, renewable natural gas, propane, and hydrogen to the global automotive industry. Our technology delivers the performance and fuel efficiency required by transportation applications and the environmental benefits that address climate change and urban air quality challenges. Headquartered in Vancouver, Canada, with operations in Europe, Asia, North America and South America, we serve our customers in more than 70 countries with leading global transportation brands. At Westport Fuel Systems, we think ahead. For more information, visit www.wfsinc.com.

Cautionary Note Regarding Forward Looking Statements

This document contains forward-looking statements, including statements regarding the demand for our products, the future success of our business and technology strategies, investment, cash and capital requirements, intentions of partners and potential customers, the performance and competitiveness of our products and expansion of product coverage, future market opportunities, speed of adoption of natural gas for transportation, growth in demand as a result of new emission standards and terms of future agreements. These statements are neither promises nor guarantees, but involve known and unknown risks and uncertainties and are based on assumptions that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activities, performance or achievements expressed in or implied by these forward looking statements. These risks and assumptions include risks and assumptions related to our revenue growth, operating results, industry and products, the general economy, conditions of and access to the capital and debt markets, governmental policies and regulation, technology innovations, fluctuations in foreign exchange rates, global government stimulus packages, the acceptance of natural gas vehicles in fleet markets, the relaxation or waiver of fuel emission standards, the inability of fleets to access capital or government funding to purchase natural gas vehicles, the sufficiency of bio methane for use in our vehicles, the development of competing technologies as well as other risk factors and assumptions that may affect our actual results, performance or achievements or financial position discussed in our most recent Annual Information Form and other filings with securities regulators. Readers should not place undue reliance on any such forward-looking statements, which speak only as of the date they were made. We disclaim any obligation to publicly update or revise such statements to reflect any change in our expectations or in events, conditions or circumstances on which any such statements may be based, or that may affect the likelihood that actual results will differ from those set forth in the forward looking statements except as required by National Instrument 51-102.
