

PRESS RELEASE

Westport Fuel Systems Brands at GasShow 2017

April 7, 2017

WARSAW, POLAND – Westport Fuel Systems Inc. ("**Westport Fuel Systems**") (TSX:WPRT / Nasdaq:WPRT) will have eight of its Automotive brands on display at the International GasShow, the world's largest trade fair and industry meeting for the liquid petroleum gas ("**LPG**"), compressed natural gas ("**CNG**") and liquid natural gas ("**LNG**") sector.

Westport Fuel Systems is driving innovation to power a cleaner tomorrow. The company offers a wide range of alternative fuel solutions, complementary technologies and an expanded product portfolio for global transportation and industrial applications, serving customers in more than 70 countries worldwide.

Brands attending the GasShow 2017 are BRC, Cubogas, EMER, GFI, Prins, OMVL, Valtek and Zavoli, each with a unique product offering. Bart van Aerle, Vice President, will be a key speaker on the panel *"Think locally and operate globally - opportunities and barriers for market development"*.

Westport Fuel Systems GasShow highlights:

- BRC introducing its new Electronic Multi Valve "**EMV**", an innovative electronic LPG tank multivalve that meets the current R67-01 regulations, comply with OEM requirements, and integrates an advanced multifunctional sensor which replaces the standard mechanical level and 80% filling stop devices.
- Cubogas presenting its state-of-the-art compressor systems suitable for any type of CNG application: vehicle refueling, plant supply, biogas, and oil & gas. Its reliable technology, proven by more than 3,200 compressors delivered around the world, offers customers turn-key solutions based on history, experience and innovation.
- Prins launching multiple new products including Dual Injection technology that comes with the new VSI-2.0 DI LPG system, its new Compact Pro ECU, its new eVP-500 LPG reducer and its new Direct LiquiMax Gen3 liquid LPG system for Direct injection engines. All of these products provide customers with the benefit of lower fuel costs and much reduced CO2 and particle emissions.
- GFI introducing its EZ GFI Systems that offer high performance with proven software technology.
- Valtek showing its high efficiency injector Type 39, a real side-feed electro-injector, aluminium body, suitable for CNG and LPG applications, with high performance in terms of reliability and speed. Valtek will also display its new shut-off Valve Type 10, which replaces the successful Valve Type 07, by providing a more compact, powerful and easy-to-maintain shut-off valve.
- ZAVOLI displaying a redesigned, more practical and innovative ZETA PLUS regulator, featuring a built-in solenoid valve and an easy service high pressure filter. In addition, ZAVOLI is introducing the new generation of BORA Gas ECUs, featuring innovative and exclusive strategies such as superior adaptive functions and double injector management.
- OMVL introducing its completely new range of conversion kits, featuring a new generation of high precision and performance ECU systems, and the "GEMINI" injectors, a faster evolution of the famous "Superlight".
- EMER highlighting a complete portfolio of LPG and CNG OEM solutions dedicated to light, medium and heavy-duty vehicles all developed with in-house design, testing and manufacturing capabilities.
