

PRESS RELEASE

Westport Fuel Systems Awarded NAFTAL Tender

October 31, 2017

BRC to Supply 40,000 LPG Systems in Algeria

VANCOUVER, BC – Westport Fuel Systems Inc. ("**Westport Fuel Systems**") (TSX:WPRT / Nasdaq: WPRT) announced today that BRC Gas Equipment ("**BRC**") was awarded a competitive tender bid by Algeria's National Company for Petroleum Products Marketing and Distribution ("**NAFTAL**") to supply 40,000 liquid petroleum gas ("**LPG**") sequential injection systems to be delivered into the growing Algerian market in 2018.

"This is the largest tender we have received from NAFTAL to date, proving the competitiveness and quality of BRC LPG systems," said Andrea Alghisi, Westport Fuel Systems Chief Operating Officer, Automotive. "We are pleased to be the preferred partner of NAFTAL to support their strategic program for the expansion of LPG use in one of the world's most promising alternative fuel markets."

Since 2002, BRC has been awarded multiple tenders from NAFTAL for a combined total of 65,000 LPG systems. With the addition of this recent tender mentioned above, a total of 105,000 LPG systems will be delivered to NAFTAL by end of 2018.

According to NAFTAL statistics, Algeria has close to 260,000 LPG vehicles or about 8% of the total passenger cars making it the largest population of LPG vehicles in Africa.

About NAFTAL

NAFTAL is an Algerian subsidiary of Sonatrach Group, which is ranked among the top 15 oil companies in the world. Specializing in the distribution of petroleum products, NAFTAL is the first company in Africa that has embarked on the conversion of gasoline engines to LPG, since the 1980s. Currently, Algeria has close to 260,000 LPG vehicles and this figure is expected to increase to 1,000,000 vehicles in 2025 as the Algerian government works to reduce the consumption of polluting fuels and promote clean fuels.

About Westport Fuel Systems

At Westport Fuel Systems, we are driving innovation to power a cleaner tomorrow. We are a leading supplier of advanced fuel delivery components and systems for clean, low-carbon fuels such as natural gas, renewable natural gas, propane, and hydrogen to the global automotive industry. Our technology delivers the performance and fuel efficiency required by transportation applications and the environmental benefits that address climate change and urban air quality challenges. Headquartered in Vancouver, Canada, with operations in Europe, Asia, North America and South America, we serve our customers in more than 70 countries with leading global transportation brands. At Westport Fuel Systems, we think ahead. For more information, visit www.wfsinc.com.
